JEET CHAUHAN

SOFTWARE DEVELOPER

Ahmedabad, India | spgtjeet123@gmail.com | linkedin.com/in/jeetc2003 | +91-9054992802

SUMMARY

Software Developer with 1+ year of hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Comfortable working across frontend and backend development, from building responsive interfaces and reusable components to developing REST APIs, authentication flows, and database integrations. Experienced in working with cross-functional teams on production applications and deploying web applications to AWS. Strong foundation in JavaScript-based full-stack development with practical experience turning requirements into working features.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), C#, HTML5, CSS3
Frontend:	React.JS, Redux Toolkit, React Router, Tailwind CSS, GSAP, Axios
Backend & Database:	Node.JS, Express.JS, ASP.NET, REST APIs, MongoDB, PostgreSQL,
Cloud & Tools:	Git, GitHub, VS Code, GraphQL, SignalR, Vercel, Render, Postman

PROFESSIONAL EXPERIENCE

Software Developer, *Engineering Services International* **07/2025 – 04/2026**
Ahmedabad, India

- Developed **2+ React.js & Node.js applications**, supporting **500+ API requests/hour** across core application workflows
- Streamlined frontend data handling and reusable components, reducing **redundant API calls by ~20%** and improving application responsiveness
- Built **15+ reusable React components**, reducing repetitive UI development and improving consistency across modules

Intern, *Vardhan Insys* **12/2024 – 04/2025**
Ahmedabad, India

- Developed a **4-role Complaint Management System**, streamlining complaint registration, assignment, tracking, and resolution workflows
- Optimized MongoDB queries and API handling, reducing **average response time by ~20%** across key complaint workflows
- Developed **10+ REST APIs** using Node.js/Express.js and deployed the application on **AWS**

TECHNICAL PROJECTS

CineLend - Movie Renting System | Visit | Github

- Built a MERN movie rental platform for 4,300+ movies, using 400ms debounced search and paginated discovery to reduce redundant requests.
- Enhanced discovery with server-side filtering across 8+ parameters and 24-item pagination, reducing unnecessary frontend processing.
- Architected 2 MongoDB databases with JWT-secured APIs supporting 7+ user workflows across likes, comments, collections, cart, and rentals.
- Deployed React/Node.js on Vercel + Render, configuring production CORS, APIs, and authentication.

UrbanLux – E-Commerce Web App | Visit | GitHub

- Executed JWT-based authentication and RESTful APIs to handle secure user transactions.
- Built frontend using React and deployed it on Vercel
- Enforced backend APIs with Node.js and Express, hosted on Render

Velvet Pour – Frontend, GSAP | Visit | GitHub

- Built a visually rich, animation-driven website inspired by premium cocktail lounges
- Implemented advanced GSAP animations including Scroll Trigger, timelines, and parallax effects
- Created fully responsive UI with smooth scroll interactions and cinematic transitions
- Strengthened skills in animation performance optimization and modern UI/UX design

EDUCATION

Masters of Computer Application **07/2023 – 04/2025**
L.D. College of Engineering *Ahmedabad, Gujarat*

Bachelor of Computer Application **07/2020 – 05/2023**
Chimanbhai Patel Institute of Computer Application *Ahmedabad, Gujarat*

AWARDS & CERTIFICATIONS

Applied Cloud Computing – *Microsoft* & *Edunet*
Smart India Hackathon (SIH) – *AICTE*
